*Vermont only uses 2 digit revenue codes so analysis wasn't available

Appendix D: Definitions of Utilization Flags Using Revenue Codes and ICD-9-CM Procedure Codes, Including Flags that were Dropped (in alphabetic order)

* The **Status** column indicates whether the utilization flag would be defined by only revenue codes, by revenue codes and ICD-9-CM procedures (Dual Flag), or dropped. If the flag is dropped, the reason for exclusion is included in the Comments section.

Alternative Therapy Services	2100-2109	None	0	--	--	--	Drop	Not coded in development database.
Anesthesia	370-379	None	814,500	--	--	--	Drop	Seventy-one percent (71%) of records with a major surgical procedure had anesthesia revenue code. See comments under OR.
Anesthesia Professional Fees	963, 964, 974	None	108,547	--	--	--	Drop	Professional fees are not uniformly coded across states and add few records to the utilization flag. ANESTH alone captures 26.3% of the records; ANESTH_PRO captures 3.5% of the records; and combined they capture 27% of the records.
Angiocardiology	321	Procedure Codes 884 and 885	1,884	161,683	--	--	Drop	It appears that revenue codes 321 and 323 are not used appropriately. The distribution of the diagnoses include a mixture of peripheral and coronary atherosclerosis. This procedure tends to be reported under the cardiac cath revenue code (481). Angiography/arteriography procedures codes (884 and 885) identify 161,683 records. The revenue codes of 321 (Diag-ANGIOCARDIOGRAPHY) and 323 (Diag-ARTERIOGRAPHY) are present on only 7.5% of these records. Revenue code 481 (cardiac cath) is coded on 76% of the records.
Arteriography	323	Procedure Codes 884 and 885	15,418	161,683	--	--	Drop	See note under Diag - Angiocardiology.
Arthrography	322	None	229	--	--	--	Drop	Low yield.

Blood Products and Administration (U_BLOOD)	380-389, 390-399	CCS 222: Blood transfusion	362,282	139,668	6,852	Dual Flag	Including the revenue codes for blood storage captures many more records and almost all blood transfusion records. Apparently there is some confusion about whether it is permissible to bill for blood products – varies by state (according to: http://www.cap.org/apps/docs/cap_today/feature_stories/bloodandmoney.html).
Blood Products Only	380-389	CCS 222: Blood transfusion	22,400	139,668	133,225	Drop	Revenue Codes 380-389 are not coded on many of the records with a blood transfusion procedure. Need to use 380-389 and 390-399 (blood admin) to capture appropriate records.
