Please visit www.hcup-us.ahrq.gov/tech_assist/centdist.jsp

STATE APPLICATION

Data Organizations participating in the Healthcare Cost and Utilization Project (HCUP) have agreed to release their State Inpatient Databases (SID), State Ambulatory Surgery and Services Databases (SASD), and State Emergency Department Databases (SEDD) through the Central Distributor under the auspices of the Agency for Healthcare Research and Quality (AHRQ). This uniform application was designed by the participating Data Organizations to satisfy their requirements. As such, the information requested in this application is collected for the fulfillment of the data request and reported to the Data Organizations. AHRQ and the HCUP Central Distributor are facilitating access to the SID, SASD and SEDD, which are owned and regulated by the individual Data Organizations participating in HCUP.

SID, SASD, and SEDD data may only be used for projects that have been reviewed and approved by AHRQ on behalf of the Data Organizations. Data users must agree to use the databases only for research and statistical purposes, to make no attempts to identify individuals, and to comply with all other provisions and restrictions of the HCUP Data Use Agreement (DUA). Your information will be used only to evaluate your application, fulfill your order, and to follow up in the event of a DUA violation.

Each Data Organization determines which data elements may be released through the HCUP Central Distributor. However, data elements in the SID, SASD, and SEDD are in a uniform HCUP format that is consistent across all States and years of HCUP data.

If you have questions, please contact the HCUP Central Distributor by toll-free telephone (866-290-4287), fax (805-979-3787), or by email at HCUP@AHRQ.gov.

Part II: HCUP Data Use Agreement Training

Because of the sensitive nature of the data contained in the Healthcare Cost and Utilization Project (HCUP) databases, there is a continued need to reinforce the safeguards and restrictions placed on use of the data. All data purchasers and users of HCUP data must complete the online HCUP Data Use Agreement (DUA) Training. This course emphasizes the importance of data protection, helps to reduce the risk of inadvertent violations, and describes your individual responsibility when using HCUP data. The course will take approximately 15 minutes to complete.

If you have not previously completed the HCUP DUA Training, please go to the HCUP-US website at www.hcup-us.ahrq.gov/tech_assist/dua.jsp, complete the training, and record the certification number at the end of the course as well as the date completed in the space provided below.

Part III: Selection of HCUP Databases

In the following pages, you will select the HCUP State databases you wish to order.

Section A: Select State Inpatient Databases (SID)

Section B: Select State Ambulatory Surgery and Services Databases (SASD)

Section C: Select State Emergency Department Databases (SEDD)

In each section, circle the price for each year of each database you are requesting and enter the subtotal of requested data on each row and at the bottom of the page in the column titled “Row Total.” These page subtotals will need to be totaled for use in [Part X: Estimated Payment Information](#).

Please refer to the Databases section of the HCUP User Support website (www.hcup-us.ahrq.gov) for detailed information about the SID, SASD, and SEDD. Not all HCUP data elements are available from every State.

The participating Data Organizations set the price of their data files. Shipping and handling charges are included in the listed price. Some Data Organizations offer special pricing based on the purchaser’s status, such as: not-for-profit organizations, AHRQ grantees, and current students. Please refer to Part IX: Eligibility for Special Pricing to determine your eligibility.

HCUP Data Elements for Revisit Analyses

Two HCUP data elements can be used in tandem to track sequential visits for a patient within a State and across facilities and settings (e.g., inpatient, emergency department, ambulatory surgery and services) while adhering to strict privacy guidelines:

- VisitLink (www.hcup-us.ahrq.gov/db/vars/siddistnote.jsp?var=visitlink) is a synthetic person-level identifier that has been verified against the patient’s date of birth and sex and examined for completeness.
- DaysToEvent (www.hcup-us.ahrq.gov/db/vars/siddistnote.jsp?var=daystoevent) is a timing variable that can be used to determine the days between hospital events for an individual. Actual dates (e.g., admission, discharge, or birth) are not needed.

These data elements are in two different formats, depending on the data year:

- 2003–2008: VisitLink and DaysToEvent are in a comma-separated values (CSV) supplemental file on the data CDs or DVDs. The CSV file also contains the unique record identifier, KEY (www.hcup-us.ahrq.gov/db/vars/siddistnote.jsp?var=key), which must be used to merge revisit data with the discharge files.
- 2009 forward: VisitLink and DaysToEvent are included in the ASCII-format Core files.

Detailed documentation is provided at www.hcup-us.ahrq.gov/toolssoftware/revisit/revisit.jsp.

In the price tables on the following pages, databases that include revisit data are identified with an “R” to the right of the price, for example: \$100R.

§ - California SID, SASD, and SEDD beginning with data year 2018 are available only to university-employed researchers for individual projects that have undergone IRB review. Please see specific eligibility requirements and restrictions in the Additional Requirements from the State of California (https://hcup-us.ahrq.gov/tech_assist/centdist/CA-Additional-Requirements.pdf). These products must be ordered separately.

^ - Colorado SID, SASD, and SEDD data may only be released by the HCUP Central Distributor to not-for-profit researchers. For-profit affiliated users may contact the Colorado Hospital Association (hcup-us.ahrq.gov/partners.jsp#CO) directly to request Colorado inpatient or outpatient data.

† - Georgia data is not available to for-profit entities or to students. The Georgia Hospital Association must approve any data release.

Part VII: Additional Requirements from the State of California

All researchers requesting the HCUP California SID, SASD, and/or SEDD data year 2018 and later through the HCUP Central Distributor must certify and agree to additional terms in order to receive the CA data. You are required to acknowledge these terms as part of the application process.

Instructions to complete the Additional Requirements from the State of California:

1. Print the Additional Requirements from the State of California
 - PDF file, 112 KB: www.hcup-us.ahrq.gov/tech_assist/centdist/CA-Additional-Requirements.pdf
2. Complete, sign, and date the Additional Requirements from the State of California.
3. Insert signed Additional Requirements after this page in your completed application packet.

Part VIII: Statement of Intended Use of State Databases and Description of Project Activities

A Statement of Intended Use is required when you request SID, SASD, and/or SEDD files from the HCUP Central Distributor. See the Guide for Preparing the Statement of Intended Use for State Databases (PDF file, 143 KB):

- www.hcup-us.ahrq.gov/tech_assist/centdist/StatementIntendedUse.pdf

This Statement of Intended Use is reviewed by AHRQ on behalf of the HCUP Partners. It should include enough information for reviewers to understand how the HCUP data will be used and reported, including compliance with the *HCUP Data Use Agreement (DUA) for State Databases*.

The DUA provides complete descriptions of the acceptable uses of the HCUP SID, SASD, and SEDD. In general, files from these databases are available for the purposes of research and aggregate statistical reporting. Attempts to identify individuals are strictly prohibited. Information that could identify establishments directly or by inference may not be released in disseminated or shared materials.

If you are purchasing additional data for a previously approved project, you must provide the complete project description here. Failure to do so will delay the review of this new application. If you have the order number(s) for the related purchases available, please also include them.

NOTE: The AHRQ reviewers will put your application on hold and request additional clarification if you do not provide all of the information requested.

An additional page may be added if necessary, however, please be sure to number your responses.

1. **Project title or summary of research topic**
2. **Project description**, including the goals and objectives, specific research questions, level of analysis (e.g., patient, hospital, county, state), and how your final product will adhere to the restrictions of the HCUP Data Use Agreement.
3. **Expected end-products** (e.g., peer-reviewed manuscripts, reports, tables) based on this use of the requested HCUP databases **and the intended audiences** of these products.
4. **If you have requested one or more databases at the “Student” price**, please address the following questions if you have not done so within your responses above. This information is required in order to assess your eligibility for these reduced rates offered by some of the HCUP Partners.

Is this project for personal use in your own academic pursuits (i.e., capstone project, dissertation)? Will anyone other than you have access to these databases? If so, who are they and what is their role? Student priced data may not be transferred to another individual. Is it your intent to keep this data with you when you leave your current academic setting? In addition, please describe where and how the data will be stored and secured in your current setting as well as when you leave.
